

WEDNESDAY - THURSDAY

21

22

**2 DAYS SCULPTURE COURSE WITH LIVE MODEL
(09:00-12:00 and 14:00-17:00)**

Teacher: Maestro Angiolino Aime

Through a hand-on approach each student will learn practical techniques and will gradually develop observational skills that will allow her or him to judge proportions, mass and volume in the chest wall and particularly in the breast mounds. Participants will work on their own sculptures in the round and will be given the opportunity of working with a life model whilst observing and translating their observation into a clay artwork.

THURSDAY

22

**3 HOURS COURSE ON SUCCESSFUL PRACTICE
MANAGEMENT
(09:00-12:00)**

Teachers: Laura Hurtado, CEO Sculptor Clinic & Alberto Rancati, plastic surgeon

You will learn how to:

- Have a strategic vision of Marketing
- Create the team of your dreams
- Improve your sales and services
- Grow as a leader and a professional entity
- Create an organizational philosophy
- Practically manage your finances
- Deal with unexpected outcomes
- Treat the problematic patient
- Run the art of consultation

**3 HOURS COURSE ON HD BODY CONTOURING AND
GLUTEAL AUGMENTATION
(14:00-17:00)**

Teachers: François Petit and Ricardo Ventura, plastic surgeons

First, the anatomy of the abdominal region and the buttocks will be clearly illustrated. Then we will go into the surgical details starting from the indications and the operative choices to continue with the description of the most suitable interventions for each case. Fat grafts, implants, HD liposuction, etc. will be carefully considered and analyzed in detail. Different examples of the various types of intervention will be explained and the complications and their treatment will be shown.

Course 2 and course 3 will be available free of charge thanks to the generosity of the teachers

FRIDAY

23

**Sponsored Lecture: THE CONSTRUCTION OF A NEW
STANDARD IN PLASTIC SURGERY: SCIENCE, TECHNOLOGY,
AND CLINICAL EVIDENCE**

Juan Jose Chacon
